## Modules completed

Module title	Description	Completed on	Duration
Monitor and troubleshoot Teams Phone	Troubleshooting is an important task that includes troubleshooting of phone number assignment, call failure and quality issues, client issues, and device issues. Call Analytics and Call Quality Dashboard are also covered for reporting and troubleshooting.	Nov 30, 2023	1 hr 12 min
Guided project - Prepare meeting room experiences	In this module, you'll prepare your Microsoft 365 developer tenant to be ready for the usage of Microsoft Teams Rooms. You'll create the tenant from scratch, change security related settings, and prepare Microsoft Teams Rooms specific tasks.	Nov 30, 2023	50 min
Configure, deploy, and manage Teams devices	Teams devices provide a familiar experience and are essential for a hybrid workspace. Learn how to provision and manage devices, and associated device accounts.	Nov 30, 2023	1 hr 22 min
Guided project - Create and assign Teams policies to meet business requirements in Microsoft Teams	In this module, you'll practice how to meet specific business policies by creating relevant policies to disable GIFs, enable the lobby for all external users and disable desktop sharing remote control.	Nov 30, 2023	48 min
Manage meetings and virtual events experiences	Learn about different meeting solutions in Microsoft Teams, various settings and policies for Teams meetings and live events, and configuration for Audio Conferencing.	Nov 30, 2023	1 hr 15 min

Module title	Description	Completed on	Duration
Plan for Microsoft Teams Rooms and Surface Hub	Plan for Microsoft Teams Rooms and Surface Hub	Nov 30, 2023	50 min
Introduction to Teams meetings and calling	Introduction to Teams meetings and calling	Nov 30, 2023	56 min
Configure and manage voice users	Ongoing management is required as new employees start, or if their needs change. Learn how to manage voice user configuration, including enabling voice services and adjusting voice configuration.	Nov 29, 2023	41 min
Implement security for Microsoft Teams	Implement security for Microsoft Teams	Sep 23, 2023	40 min
Extend Teams Phone with additional services	Teams Phone leverages other Microsoft services and can be extended with third-party solutions for policy-based compliance recording, contact center integration, and custom bots.	May 5, 2023	43 min
Configure and deploy Direct Routing	In this module, you'll learn how administrators configure Direct Routing to meet user needs for telephony through a PSTN.	May 1, 2023	54 min
Configure auto attendants and call queues	Understand how auto attendants and call queues in Microsoft Teams can interact with callers to ensure they're connected your agents as quickly as possible. You'll also learn how to setup auto attendants and call queues.	Apr 25, 2023	55 min
Configure Teams Phone	Teams Phone requires some configuration before users can make calls, receive calls, and use all the features. Microsoft Calling plans or Operator Connect for your PSTN must be configured before phone numbers can be assigned to users.	Apr 25, 2023	1 hr 15 min

Module title	Description	Completed on	Duration
Migrate voice services from Skype for Business Server to Teams	In this module, you'll learn how to plan, configure, and migrate Skype for Business Server Enterprise Voice users and devices to Microsoft Teams. This will allow you to gradually move people from on-premises to the cloud, while maintaining the ability to call internally and externally during the migration. You can also continue to make use of personal and meeting room devices.	Apr 16, 2023	42 min
Plan and optimize network performance for Teams Phone	Microsoft Teams relies on network connectivity, and for real-time voice, video, and sharing, good network performance is key to a good user experience. In this module, we go over what the Teams real-time network requirements are, how you can plan and test your network, and how you can design and configure your network to optimize the Teams real-time media performance.	Apr 13, 2023	1 hr 6 min
Plan for Teams Phone	Understanding of what is included in Microsoft Phone System, what is needed to make and receive phone calls, how to plan for phone system devices, phone system features, and planning for cloud voicemail.	Apr 11, 2023	40 min
